

AN APPEAL TO MUSIC LOVERS

We have been locating, restoring and disseminating historically important broadcast performances of opera, symphony and lieder recitals for over 30 years. We are a non-profit, educational, federally chartered organization in grave need of your help, should you desire to make a contribution to support our work. Outside of Canada we can only provide tax receipts for income tax purposes for the U.S. if the contribution is a minimum of \$1000 (the funds can then be transferred through the Tides Foundation). Please inquire with us for more details.

At the present time, after the release of our eight debut albums under our own label, we are seeking funds to release sequentially some 40 important performances on which we have worked for the past 4 years. If you are interested in making a contribution, please contact:
