January 2013

Brahms Cycle 1935

Toscanini – N.Y. Philharmonic (IPCD 1025-4)

CD 1

The sound engineer, Richard Caniell, writes about this remaster:

I have remained discontent with the interpolation of the concluding part of the Tragic Overture, and have re-done it and the applause which follows. I enclose this re-mastered CD 1 as well in the hope you will find it superior.
