NOTICE

Der Fliegende Holländer Covent Garden 1937 Re-master CD-2

We discovered a processing defect in the Act II *Holländer* – Senta Duet. This imparted a gritty, pock-like sound underneath all of Flagstad's loudest high notes. Our sound engineer, disturbed by this, has re-mastered side 2 so that the purity of Flagstad's singing is preserved if not enhanced, though there is a slight increase in a lesser level of grit and small ticks.

This re-master, identified by a gold dot on the label, is available free with any order you might place or for the cost of postage, if you desire the disc alone.
