### **REMASTER CD-2**

July 19th, 2022

CD 2 had a substantial pitch problem in one of the tracks that got by despite the pitch corrections that had been fixed for the original restoration.

The pitch insidiously veered off sharp, and is here now corrected and enclosed, along with our apologies for the error. Two gold dots below the angel distinguish this copy from the one in your set.

Thanks for your patience,

The Directors
