## Die Meistersinger Met 1939

### CD 3

The sound engineer, Richard Caniell, writes about this remaster:

In addition to the myriad cuts Bodanzky made to the performance heard in this broadcast, described at length in the booklet notes, he also cut the second stanza of the Preislied (how much time could he save for this?). At the time our album was released we had been unable to locate a broadcast of Kullmann singing the Preislied (the commercial recording didn't match the acoustic of the broadcast) but since then this second stanza has been found. I have now brought it into the Preislied. It is included on the remastered disc enclosed with this album.
