To All Purchasers of the
DAS RHEINGOLD
In the
DREAM RING

REMASTER

CDs 1 and 2

The sound engineer who originated the Dream Cycle has auditioned again this *Rheingold* (IPCD 1126-2) and discovered still more aspects that he feels must be corrected; these connected to pitch lapses and some surface noise. As a result the entire set has been REMASTERED and will be provided *gratis* to all past purchasers. Ask for it in your next order.

For those who don't anticipate making an order for sometime please let us know and we will send the two discs by postal mail.
