Götterdämmerung: Melchior Memorial (IPCD 1010-4)

(An Opera House of our Dreams – Heritage edition)

A Special Offer – CD-4

CD-4 of this set has Toscanini conducting the Funeral Music and the Immolation (with Traubel), with the balance conducted by Fritz Stiedry. This is our Ideal version. However we now offer the music drama largely conducted by Stiedry with exceptions in the Prologue and elsewhere noted. We have a special disc on our black and gold label that offers this alternative. New purchasers can make their choice (either one or both versions). We offer the alternative with Stiedry solely conducting to previous purchasers of the set, for a fee of \$5.00. This fee would also apply to new purchasers if they choose both versions.
