Francesco Merli Tribute

Otello Act I complete, plus Excerpts
(IPCD 1132-2)

REMASTERED CD-1

Once again an unacceptably reproduced CD 1 in our Merli Tribute got by us and was distributed. If you purchased this set from us or from Norbeck, Peters and Ford, we will replace CD-1 *gratis*. It would be helpful if we could just include the remastered disc with your next order, thus saving us postage, but if you are unlikely to be ordering in the near future let us know and we will replace CD-1, postage paid.

The unacceptable part has to do with the final five tracks (*Trovatore*) especially the Act 4 Aria *Miserere* and subsequent duet, which has a huge hiss level we thought had been removed.
