NORMA

Heritage Series With Callas and Corelli
La Scala 1955
(IPCD 1214-2)

REMASTERED CDs 1 and 2

This much labored upon Heritage performance is in good sound but there was a subtle edge or harshness in the upper registers. The sound engineer was able to soften this and produce more natural sound without hurting the overtones.

We will replace CDs 1 and 2 *gratis*. It would be helpful if we could just include the remastered discs with your next order, thus saving us postage, but if you are unlikely to be ordering in the near future let us know and we will replace CDs 1 and 2, postage paid.

The Directors
