Norma Met 1937 with Cigna (IPCD 1063-2)

REMASTERED CD 1

We discovered by a comment by one of our customers that the ultimate and final master on this much worked-upon release was not what was distributed in the final production. Unfortunately this means that what we offered had a particularly notable pitch lapse. There was also a skip in the music that needed to be corrected. We offer this remastered disc free with any prospective order, or if you wish just to have the corrected disc we will ship it at no charge. Our regret for the errors.
